

# CRUSHING HAMMERS FOR THE HEAVY INDUSTRY

Manufacture of a wide variety of hammers for different industries: Cement, Food, Coal, Metallurgy, Building Materials, Recycling, among others.

Limestone crushing hammers

Pin Protective Hammers  
for Primary Scrap Mills

Coal Crushing hammers

Cane shredder hammer for  
the Sugar industry with hard facing.

## MANUFACTURING CAPABILITIES AND PROPERTIES

- Manufacture of various types of crushing solutions according to specific requirements.
- Spare parts for crushing raw materials and particle size reduction.
- According to the characteristics of the process, we offer solutions to improve the amount of material crushed per set of hammers.
- Different materials, cast or fabricated, with or without hard facing for limestone crushing, slag, coke and coal among others.
- Bimetallic casting for optimized performance of hammers or other spare parts.
- Used in industrial processes such as: Cement, Coal, Metallurgy, Building materials, Combustion and Recycling among others.
